Product

Chubb CCTV Desk Top Sequencers – automatically switches pictures from multiple cameras to single or dual monitors

Benefits

- Manual or automatic sequencing of camera selection with single or dual monitor outputs
- Choice of unit with up to 4 cameras for a single monitor, or up to 8 cameras for dual monitors
- Dual monitor unit is available with external alarm inputs and will automatically display the picture associated with the alarmed zone for a preset time and can initiate video recording
- Flexible viewing options with variable dwell times from 1 to 60 seconds
- Intelligent sequencing automatically bypasses unused inputs
- Roll free sequencing for improved video recording
- Single monitor unit offers automatic sequencing or manual selection
- Dual monitor unit features independent control for a fixed camera view on one monitor while the other continues sequencing

Chubb CCTV Desk Top Sequencers
