

HYDROSPRAY ELITE

TYPE: EB3

EB3

- FEATURES:
- Up to 300% more effective than traditional jet type water extinguishers.
 - Gives added operator safety if accidentally used on electrical risks as they have passed the 35KV conductivity of discharge test.
 - Particularly effective for cooling and penetrating the fire.
 - Spray nozzle gives wider coverage to maximise fire fighting performance.
 - 15 bar working pressure gives greater application reach so helping ensure user safety.
 - Non-damaging plastic skirt.
 - Unique tamper evident safety pin with OK indicator to reduce accidental discharge.
